- A rigorous assembly to ensure solidity & durability
- An unrivaled quality of finish
- Superior quality within your reach

THE FOREST ART DIFFERENCE

- Sustainable & aesthetic value
- Secure & Personalized Purchasing Experience
- Simple & honored warranty
- Environment Protection

Finished Wooden Doors

Forest Art is setting a revolution in the Pakistan manufacturing industry. Forest Art promotes the European concept of using eco-friendly and light weight durable door in fills such as honey core and tubular cores. As with many of our ranges, we offer doors suitable for both contemporary and traditional applications. In addition, as with many of our designs, they can be used as double doors. We also manufacture frames and architraves which are pre-finished to compliment many of your chosen internal doors.

- Moulded panel doors
- Decorative door
- Veneered door
- Laminated door
- Solid wood door
- Door frames
- Window frames
- Fire rated doors

stave core

Forest Art panel doors are top of the line quality manufactured as per customer's design requirements and wood selection.

The doors are 100% solid & long lasting to meet the needs of the commercial, industrial & house hold requirements.

FLUSH DOOR CROSS SECTION

Forest Art flush doors are 100% solid with small wood pieces filling inserted in a frame & later covered with high quality veneers.

Finally polished or painted as per customers's requirement.
